

Acoustic Gates

Case Study | Jacksons Fencing

At Jacksons we believe making the impossible, possible and we relish in the challenge of new and difficult projects that lean our experience and test our engineering, design and manufacturing expertise. Below are examples of our larger acoustic gates we have been involved in for various projects, either as sliding or swing gate.

- 2.85m high x 6m wide tracked acoustic

- 4.45m high x 11.5m opening tracked acoustic

- 4m high x 7.25m opening tracked acoustic

Acoustic Gates

Case Study | Jacksons Fencing

- 4m high x 3m wide acoustic swing and 4m high x 9m wide opening acoustic tracked

- 3.8m high x 5m wide acoustic swing

- 4.5m high x 4.5m wide single leaf swing and 4.5m high x 7.5m wide tracked slider as a pair
