

Jacksons Fencing

Why choose us?

From perimeter fencing to the main entrance gates, a school gives a clear impression of its commitment to safety and security well before a visitor even enters the grounds - and you need to reassure them that you can prevent a range of risks, such as accident and injury, anti-social behaviour and theft.

With over seventy-five years of experience, Jacksons is the bright choice for the education sector, offering a comprehensive range of security solutions designed for your school's unique needs.

Our solutions include timber and steel fencing, acoustic barriers, gates and gate automation, and parking control and barriers, which have been proven effective in school environments time and time again.

Our passion is your security

Safety

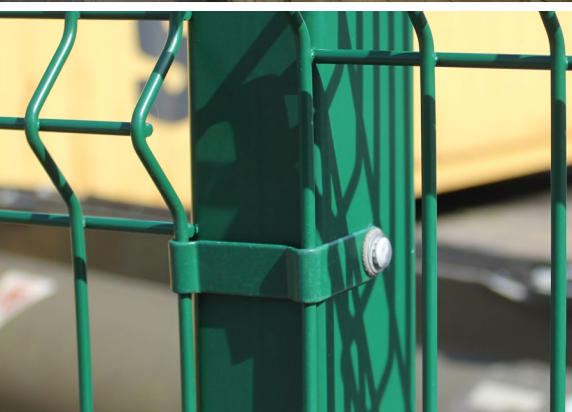

Without high quality fencing, your school is open to a variety of risks, including accidents and injury to students, staff and visitors. Jacksons' RoSPA approved fencing and gates allow you to create a safe environment around play areas, while our automated gates help to control the flow of people in and out of the grounds for maximum visibility where you need it the most.

Security

Anti-social behaviour, theft and unauthorised entry are all significant issues for schools. Security and noise management can be achieved together with our Jakoustic® noise barriers, which provide a high performance, attractive and extremely secure solution in and around your grounds, reducing noise by up to 32 decibels.*

Sustainability

All our timber and steel fencing and gates are guaranteed for 25 years, offering a low lifetime cost. Constructed from high quality materials, finished with precise treatments and coatings, and secured with premium anti-vandal connectors with fixings on the secure side of the fence, they will continue to be fit for purpose much longer than lookalike products.

Don't just take our word for it...

We are delighted with the new outdoor play/teaching area for our younger pupils. Working with Jacksons we have confidence that the investment we have made represents sound use of the school's budget – as well as delivering a lasting legacy for pupils of the future.

Headteacher, Bodsham Church of England Primary School

Jacksons has a very good reputation and I now understand why this is so. I was very impressed: the various teams always arrived on time, they completed the work just as promptly, were polite and courteous. Jacksons definitely ticked all the boxes.

Security Manager, Junior Kings School

We are not only pleased with the final result, but also very pleased with the way Jacksons' installers conducted themselves throughout their time here. They were very obliging and considerate and always keen to ensure that their work did not interfere with the day-to-day running of what is a large and busy school.

Deputy Headteacher, Sydenham School

Jacksons' workforce did a splendid job and in record time. We have received many positive comments about the fence and how well it has been erected.

Headteacher, Madginford Park Junior School

Did you know?

Jacksons has delivered over 5,000 education projects in the last ten years alone

Jacksons' timber and steel fencing and gates are covered by a 25 year guarantee
