

UHS EXTREME MESH SR3

UHS Extreme Mesh SR3 has been designed and tested to withstand forced entry using tools which include battery power tools. The SR3 mesh system is constructed from double skinned mesh providing a high level of security. The fencing and gate system has been developed to meet with demands to give a robust level of security around high security applications.

- LPS 1175 SR3 Approved
- Secured by Design Preferred Specification
- Double skinned - providing a high level of security
- Designed to be used in high security applications
- Anti-climb design
- Stainless steel fixings
- Double 50 x 30mm mesh - creating a smaller aperture

HEIGHT (MM)	POST CENTRES (MM)
2431	2505
3031	2505

FINISHES

- Hot dip galvanised to BS EN ISO 1461 as standard
- Hot dip galvanised and powder coated to BS EN 13438
- Marine coat for installations within 500m of salt water or an estuary

POST OPTIONS

- Over length set in concrete as standard
- Base plated to bolt down onto concrete

GATES

Matching single leaf gates available
