

# UHS EXTREME MESH C5 (SR3)

UHS Extreme Mesh C5 (SR3) has been designed and tested to withstand forced entry using tools which include battery power tools. The C5 (SR3) mesh system is constructed from double skinned mesh providing a high level of security. The fencing and gate system has been developed to meet with demands to give a robust level of security around high security applications.

- LPS 1175 C5 (SR3) Approved
- Secured by Design Preferred Specification
- Double skinned - providing a high level of security
- Designed to be used in high security applications
- Anti-climb design
- Stainless steel fixings
- Double 50 x 30mm mesh - creating a smaller aperture

HEIGHT (MM)	POST CENTRES (MM)
2431	2505
3031	2505

## FINISHES

- ▶ Panels are Galfan® zinc alloy coated as standard
- ▶ Optional powder coating to BS EN 13438
- ▶ Optional marine coat for installations within 500m of salt water or an estuary

## POST OPTIONS

- ▶ Over length set in concrete as standard
- ▶ Base plated to bolt down onto concrete

## GATES

Matching single leaf gates available
