

CPD Title: Acoustic barriers to environmental noise pollution

Seminar details:

With the growing impact of environmental noise on people, planning and architecture, we discuss the choice and specification of acoustic barriers.

Duration:
1 hour

Learning aims:

- Sources of environmental noise pollution
- Propagation noise
- Noise, legislation, the landscape and architecture
- Reducing effects of environmental noise
- Performance, sustainability and relative costs of noise mitigation solutions

Locations covered:

- Midlands
- London
- North West
- North East
- South East
- South West
- Southern
- Wales
