

EUROGUARD® REBOUND

Jacksons
Fencing

Jacksons Euroguard® Rebound Fencing is an alternative to Chain Link Fencing, for high usage courts. The double wire gives Rebound more rigidity and reduces the vibration along the fence line and also capable of withstanding high impact sports i.e hockey or football. The mesh's aperture is small enough to prevent sports balls from escaping, but still allows the spectator to have an unobscured view.

- 50 x 66.6mm mesh at the base to 1200mm then reverts to 200 x 50mm above up to 2030mm
- Posts 80 x 60mm subject to height of fence
- Can be stepped to accommodate sloping ground
- Post can be adapted to mount CCTV cameras, lighting or physical security devices
- **25-year service life guarantee**

APPLICATIONS

- ✓ Sports
- ✓ Schools
- ✓ Recreational areas

PANELS

Euroguard® Rebound is constructed from double 8mm horizontal wire, 6mm vertical wire. Mesh 50 x 66.6mm at the base to a height of 1230mm which then reverts to 200 x 50mm

GATES

Matching gates available

HEIGHT (MM)	POST CENTRES (MM)	POST DIMENSIONS (MM)	OVERALL POST LENGTH (MM)
2030*	3010	80 x 60	2800

*Mesh panels can be stacked up to 6m with posts designed to suit application

POST OPTIONS
