

JAKSUN™ SOLAR FENCE PANEL

Installed on 0.6m high Venetian Hit and Miss panels

The Jaksun Solar Fence Panel welcomes new opportunities for fencing in residential developments, Passivhaus constructions, schools, commercial properties, and anywhere requiring a robust fence, or with sustainability credentials to meet. Combining a 425W solar panel with our trademark Jakcure® pressure treated timber, Jaksun is a highly sustainable fencing option, harnessing the sun to produce energy.

Jaksun Specification:

- Height: 1170mm
- Width: 1830mm
- Thickness: 50mm
- Electrical Peak power - 425W
- Vmpp - 32.96V
- Voc - 39.23V
- Imp - 12.90A
- Isc - 13.93A
- 25 year Jakcure® guarantee on all timber components
- 25 year product warranty and linear solar output from solar panel manufacturer
- Must be installed with gravel board to comply with 25 year guarantee terms, slotted posts that are adapted for cables, and capping rail, which is essential to conceal cable.
- Once the fence is installed, the solar panels need connecting to a mains/inverter system (that we do not provide), by a MCS certified/qualified Solar PV installer that is also a member of a CPS from microgeneration technology, such as NICEIC.

OPTIONS

- Choice of timber fence panel underneath (sold separately)
- Works with our standard and heavy duty Jakposts, to be modified on site
- Capping rail - essential to conceal cables

FINISHES

- Jakcure® treated timber
