Options

Post:

- 1800 mm long posts for a 1.2m high, three-rail fence.
- 2400 mm long posts for a 1.5m fence or soft ground.
- 125 mm diameter posts for use with larger animals.
- 100 mm galvanized wire nails for fixing.

Versatile fencing consists of machine rounded half round vertical posts, with three horizontal half round rails, nailed to the flat face of the posts. All fixings are heavily galvanized. All timber used throughout is superior quality Jakcured softwood guaranteed for twenty five years.

Installation

In accordance to manufacturers instructions
