Jacksons Fencing
NBS Specification
[668000]. - Half round post cap for use with 100 x 100 mm posts.

Options

Type:

Various heights are available: 1100–2700 mm. Intermediate, corner and end/ gate posts available.

- Standard Jakposts: 100 x 100 mm.
- Heavy Duty Jakposts: 120 x 124 mm.

Both planed finish with two 50 x 25 mm slots for panels.

Designed to work with all of our fencing panels including Jaktop, Palisade, Featherboard and Premier Trellis panels.

Heavy Duty posts are available and should be used when the overall fence height is 2000 mm and over, where there is the possibility of high wind load or the fence is steeply stepped.

Advantages:

- Jakposts reduce damage caused by wind movement when panels are nailed to posts.
- No more frost damaged, cracked or chipped concrete posts.
- Easy to carry - lighter than concrete posts.
- Environmentally friendly.
- More supportive than square section posts.
- Easier to erect than concrete posts.
- Innovative 3 piece "slotted" construction to secure panels for added strength.

All timber is Jakcured softwood guaranteed for twenty five years.

Installation

In accordance to manufacturers instructions
