

## Perimeter protection and access control for self storage facility

**Jacksons  
Fencing**

### PRODUCTS

- Barbican Imperial® fencing and gates
- EuroGuard® Regular mesh

### CHALLENGE

Access Self Storage is one of the largest self storage companies in the UK with over 20 years experience and 50 stores nationwide. The company offers storage facilities for both personal and business use and as a result sees a wide variety of goods stored within the premises.

Access Self Storage Twickenham lies in the shadow of Twickenham Stadium on Rugby Road and serves the storage needs of Twickenham, Richmond upon Thames, West London and Surrey. The site offers 24 hour access, large vehicle access and customer parking; as such it is important that site has a secure perimeter with controlled gated access.

Jacksons Fencing were specified to install of Barbican Imperial® fencing and gates combined with EuroGuard® Regular Mesh in order to improve access control and perimeter security at the site.

Barbican Imperial® Fencing

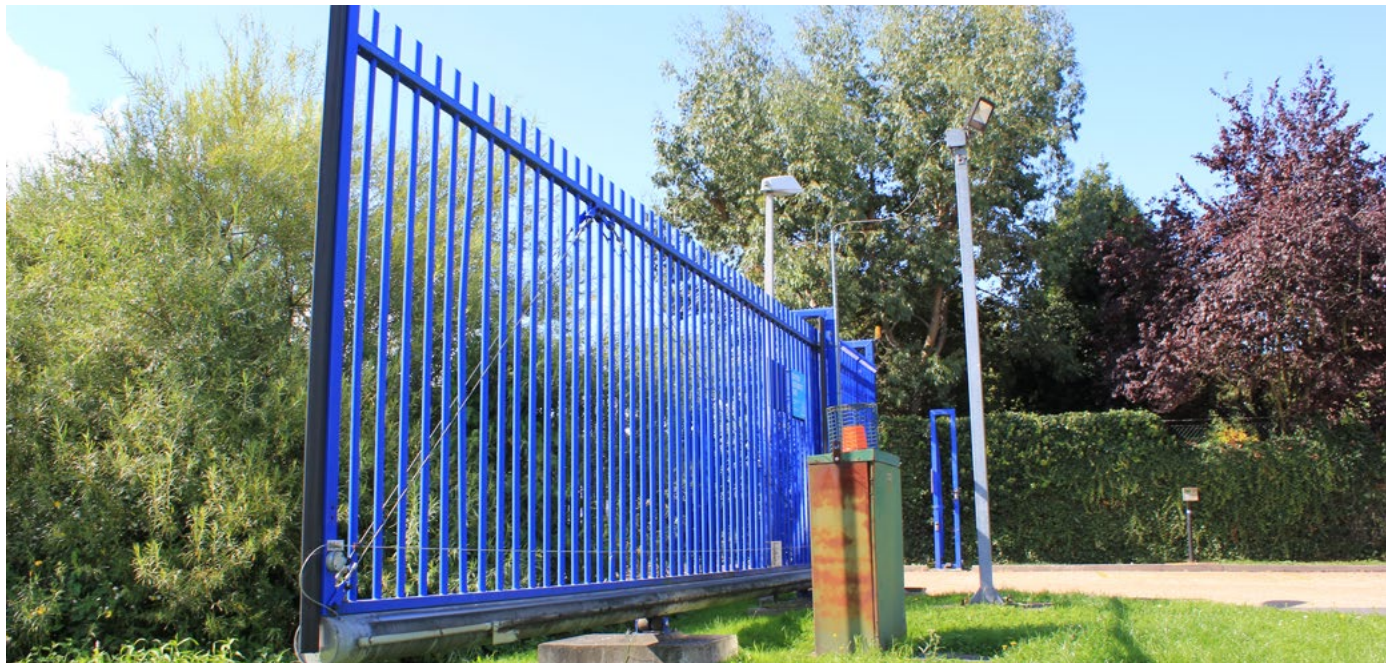

## SOLUTION

Chosen for its classic look and to secure the roadside perimeter, 2.4m high Barbican Imperial® was installed in RAL 5002 Blue to match the Access Self Storage brand colours. The round pale security fencing offers both strength and security whilst also fitting in with the surrounding residential and commercial properties.

Barbican Imperial® Fencing

To provide access control, a single leaf 2.4m x 7m cantilever Barbican Imperial® sliding gate was installed at the main entrance in matching RAL 5002 Blue colour. Additional EuroGuard® Regular mesh infill was installed on the gate to prevent unauthorised access from the outside, with a keypad providing control. A second single leaf Barbican Imperial® gate was installed on the grounds next to the building to prevent public access to private areas.
