

CRASH RATED SHALLOW MOUNT ROAD BLOCKER

The Crash Rated Shallow Mount Road Blocker has been designed to prevent the threat of potential terrorist attacks where high security is required.

Tested with a 7.2 T (N2A) vehicle at 50mph (80kph) as a shallow mount blocker.

- Tested at 3m wide
- Gaps 10mm max
- Manufactured from heavy duty steel sections fully welded
- Shallow mounting substantially reduces installation time
- Designed for axle weights in excess of 12 tonne
- 3m foundation 4m x 3.2m x 0.47m
- Raise speed: approx. 6-8 seconds, 1-2 seconds with optional EFO
- Supply: TP&N 415v 16amp
- Performance Classification: IWA14-1:2013 Blocker V/7200[N2A]/80/90:0.6

TEST RESULTS

IWA14-1:2013 Blocker V/7200[N2A]/80/90:0.6
